

List of deliverables of the Eco-Smart Project with a brief description of the contents

This list shows the deliverables of the activities carried out for the Eco-Smart project, the versions of which in Italian and in English have been included in the "project documents" section of this website.

Name of the file (ita-slo) uploaded to the project website - project documents section https://www.ita-slo.eu/it/eco-smart	Title of the Deliverables	Description of the Deliverables
5_1_PROC_COM_IDENT_ESS_IT 5_1_PROC_COM_IDENT_ESS_SLO	Common procedure for the identification of ecosystem services	The purpose of this procedure is to illustrate the process of identifying ecosystem services developed within the ECO-SMART project.
5_2_RAPP_CONG_IDENT_ESS_IT 5_2_RAPP_CONG_IDENT_ESS_SLO	Joint report on the identification of the Services Ecosystems in the affected areas	This report is intended to illustrate the results of identifying services ecosystems developed within the ECO-SMART project.

<p>5_3_PROC_COM_VAL_VUL_IT 5_3_PROC_COM_VAL_VULN_SLO</p>	<p>Common procedure for assessing the vulnerability of Natura 2000 sites</p>	<p>This procedure aims to illustrate the ecosystem services vulnerability assessment process developed within the ECO-SMART project.</p>
<p>5_4_RAP_CONG_ANAL_VULN_IT 5_4_RAP_CONG_ANAL_VULN_SLO</p>	<p>Joint report on the analysis of vulnerability</p>	<p>This Report is intended to illustrate the results of the vulnerability analysis of ecosystem services developed within the ECO-SMART project.</p>
<p>5_5_REP_MAPP_ESS_IT 5_5_REP_MAPP_ESS_SLO</p>	<p>Illustrated report on mapping of Ecosystem Services</p>	<p>Description of the results of the ESS analyzes, the vulnerability of the habitats and characteristics of the most vulnerable PES</p>
<p>5_6_IT3250031_VENEZIA_IT 5_6_IT3250031_VENEZIA_SLO</p>	<p>Ecosystem Services (ESS) and vulnerabilities tab</p>	<p>Identification of the Natura 2000 protected area with identification of the most relevant ESS</p>

5_6_IT3250033_CAORLE_FOCETAG_IT 5_6_IT3250033_CAORLE_FOCETAG_SLO	Ecosystem Services (ESS) and vulnerabilities tab	Identification of the Natura 2000 protected area with identification of the most relevant ESS
5_6_IT3250041 - VALLEVECC_IT 5_6_IT3250041 - VALLEVECC_SLO	Ecosystem Services (ESS) and vulnerabilities tab	Identification of the Natura 2000 protected area with identification of the most relevant ESS
5_6_IT3330007_CAV_MON_IT 5_6_IT3330007_CAV_MON_SLO	Ecosystem Services (ESS) and vulnerabilities tab	Identification of the Natura 2000 protected area with identification of the most relevant ESS
5_6_SI5000008 - ŠKOCJANSKI ZATOK_IT 5_6_SI5000008- ŠKOCJANSKI ZATOK_SLO	Ecosystem Services (ESS) and vulnerabilities tab	Identification of the Natura 2000 protected area with identification of the most relevant ESS
6_1_STAKEHOLDER_IT 6_1_STAKEHOLDER_SLO	List of stakeholders	Stakeholders are all the people interested and involved in the various project title.
6_2_CAP_BUIL_IT 6_2_CAP_BUIL_SLO	Plan of “Capacity Building”	The ECO-SMART “Capacity Building Plan” aims to identify the main ones needs of stakeholders and involve them in a targeted,

		relative training course the main themes of the project.
6_3_CURR_FORM_IT 6_3_CURR_FORM_SLO	Training curriculum	The partnership planned the training activity by preparing a scheduling of events, identifying the topics to be discussed and the methods more appropriate logistics to inform stakeholders.
7_1_PROC_COM_VAL_ESS_IT 7_1_PROC_COM_VAL_ESS_SLO	Procedure for the evaluation of Ecosystem services in the areas Natura 2000	This procedure is intended to illustrate the evaluation process of the Services Ecosystems (ESS) developed within the ECO-SMART project, with the ultimate goal of identify which ESSs are most suitable for implementing a PES scheme.

<p>7_2_REL_VAL_ESS_IT 7_2_REL_VAL_ESS_SLO</p>	<p>Report on the evaluation of Ecosystem services in the sites of study of the Natura 2000 network</p>	<p>This document reports a preliminary estimate of the value of Ecosystem Services (ESS) provided by the habitats present in the Natura 2000 sites investigated by the ECOSMART project, using the valuation method known as Benefit Transfer</p>
<p>7_3_IND_MONIT_IT 7_3_IND_MONIT_SLO</p>	<p>Monitoring indicator system vulnerability</p>	<p>Monitoring indicator system vulnerability</p>
<p>8_1_PROC_SEL_APPL_SIMUL_PES_IT 8_1_PROC_SEL_APPL_SIMUL_PES_SLO</p>	<p>Selection procedure applicability and simulation of the PES</p>	<p>This procedure is intended to illustrate the applicability selection process and the simulation of PES (Payments for Ecosystem Services) developed in the context of ECO-SMART project, in order to identify which payment schemes for the Services Ecosystems can be developed</p>

		in the sites under examination
<p>8_2_REL_SCHEMI_PES_SEL_IT 8_2_REL_SCHEMI_PES_SEL_SLO</p>	<p>Report on selected PES schemes</p>	<p>The final goal of this phase of the ECO-SMART project is represented by definition and structuring of the PES schemes that can be developed within the six sites involved: Upper Lagoon of Venice (IT3250031), Lagoon of Caorle - Foce del Tagliamento (IT3250033), Mouth of the Tagliamento (IT3250040), Valle Vecchia - Zumelle - Valleys of Bibione (IT3250041), Cavana di Monfalcone (IT3330007) and Škocjanski zatok - Val Stagnon (SI5000008 - SI3000252). The collected data will form the basis for the next simulation</p>

		phase of the PES schemes identified.
9_1_FORMAT_FORM_ESS_PES_IT 9_1_FORMAT_FORM_ESS_PES_SLO	Common format of training on Services Ecosystems (ESS) and Payment of Ecosystem Services (PES)	his document presents the contents of the defined training events contextually to the project activities and from the capacity building analysis that the partnership has achieved in its study areas
9_2_REPORT_ANL_FORM_IT 9_2_REPORT_ANL_FORM_SLO	Analysis of the results of the training	This Report is intended to illustrate the results of the training provided within the ECO-SMART project.
10_LP_PIANO_IT 10_LP_PIANO_SLO	Adaptation plan to climatic changes of the sites Natura 2000	The ECO-SMART project, funded by the Interreg V-A Italia cooperation program- Slovenia 2014-2020, wants to contribute to the conservation of the biodiversity of the sites NATURA 2000 thanks to the development and pilot application of

		ESS / PES methods for drafting of adaptation plans to climate change
10_PP5_FORMAT_PIANO ADAT_IT 10_PP5_MODEL NAČRTOV_SL	Joint model of the adaptation projects to climate change in the Natura 2000 sites	The purpose of this dispensation is to describe the joint model of processing climate change adaptation plans for the Natura 2000 coastal sites treated from the project.
10_PP5_PIANO ADAT_IT 10_PP5_NAČRT_SL	Adaptation plan for the Natura 2000 site Val Stagnon	In the plan of adaptation to climate change in the Natura 2000 site of Val Stagnon we therefore have analyzed the various adaptation measures and selected the most relevant ones for the site in question, which are not yet fully implemented.

<p>11_LP_DB_LAG_VEN_IT 11_LP_DB_LAG_VEN_SL</p>	<p>Information sheet on payment models for ecosystem services in the Natura 2000 site "Upper Lagoon of Venice</p>	<p>Information on the ESS and PES analyzed</p>
<p>11_LP_DB_PES_caorle_IT 11_LP_DB_PES_caorle_SL</p>	<p>Information sheet on payment models for ecosystem services in the Natura 2000 site Laguna di Caorle - Foce del Tagliamento "(IT3250033)</p>	<p>Information on the ESS and PES analyzed</p>
<p>11_LP_PES_CAORLE_IT 11_LP_PES_CAORLE_SLO</p>	<p>Simulations of the schemes of payment for ecosystem services (PES) of the Natura 2000 pilot sites Caorle Lagoon - Mouth of Tagliamento (IT3250033), mouth of the Tagliamento (IT3250040), Valley Vecchia - Zumelle - Bibione Valleys (IT3250041)</p>	<p>Description and evaluation of the pes scheme, costs and benefits analysis and feasibility assessment</p>

<p>11_LP_PES_LAG_VEN_IT 11_LP_PES_LAG_VEN_SLO</p>	<p>Simulation of the payment model for ecosystem services (PES) for the "Upper Lagoon" site in Venice "</p>	<p>Evaluation of possible applications of pes schemes at the laguna superiore di venice site it3250031 and simulation of the pes</p>
<p>11_LP_PP3_PP2_PP5_IT 11_LP_PP3_PP2_PP5_SLO</p>	<p>Ecosystem Services Payment Model (PES) simulation report and model selection</p>	<p>Simulations of payment schemes for ecosystem services (pes) of the natura 2000 pilot sites of veneto, friuli and slovenia</p>
<p>11_PP2_DB_FRUIZIONE_IT 11_PP2_DB_FRUIZIONE_SL</p>	<p>Information sheet of the models payment for services ecosystems in the Natura 2000 site Cavana di Monfalcone: Fruition</p>	<p>The formula that has been identified is that of the atypical PES, where the exchange does not take place on a monetary basis but on the basis of the time that the associations beneficiaries of the service could make available in a functional way to the implementation of the measures envisaged for conservation and enhancement from a didactic-</p>

		educational point of view of the site.
11_PP2_DB_PES_GESTIONERISORSE_IT 11_PP2_DB_PES_GESTIONERISORSE_SLO	Information sheet on payment models for ecosystem services on the Natura 2000 site »Cavana di Monfalcone: Natural resources management	General data scheme pes, data on ecosystem services under consideration and data on identified pes
11_PP2_PES_CAVANA_IT 11_PP2_PES_CAVANA_SLO	Model simulations of payment for services ecosystems of the Natura pilot site 2000 "Cavana di Monfalcone" (Friuli Venezia Giulia, Italy)	Description of the pes scheme, evaluation of the pes scheme and cost and benefit analysis and feasibility assessment
11_PP5_DB_PES1_MITIGAZ_ESTREMI-CLIMAT_IT 11_PP5_DB_PES1_MITIGAZ_ESTREMI-CLIM_SLO	Information sheet of the models payment for services ecosystems in the Natura 2000 site Val Stagnon	General information about ecosystem services analyzed, payment models identified for ecosystem services (pes)
11_PP5_DB_PES2_MOSAICO_IT 11_PP5_DB_PES2_MOSAICO_SL	Information sheet of the models payment for services ecosystems for the Natura site	General information about ecosystem services analyzed, payment

	2000 Val Stagnon	models identified for ecosystem services (pes)
11_PP5_FORMAT_PES_IT 11_PP5_FORMAT_PES_SL	Joint model of model simulations of payment for services ecosystems (PES)	Joint simulation model of payment models for services ecosystems and model for the drafting of a descriptive form to be published
11_PP5_PES_SIM_IT 11_PP5_PES_SIM_IT	Simulation of models of payment selected for i ecosystem services (PES) for the Natura 2000 pilot site Val Stagnon	The purpose of this study is to design a potential model of payment for ecosystem services (PES) for the Val Stagnon Nature Reserve as one of the activities of the ECO-SMART project (Ecosystem Services Market for Advanced NATURA2K Protection Policy). The methodological approach of reference for the PES model design, which is a standard methodology for managing projects, is taken from Waage et al. (2008).

<p>12_PP5_FORMAT_IT 12_PP5_FORMAT_SL</p>	<p>Joint training model on adaptation plans</p>	<p>The purpose of the report is to present a joint training model within the project ECO-SMART on adaptation plans and their feasibility based on payment models simulated for ecosystem services, which were developed in this project work package</p>
<p>12_PP5_RAP_RISUL_IT 12_PP5_RAP_RISUL_SL</p>	<p>Report on the results of the training events on adaptation plans to climate changes</p>	<p>As part of the training activities of work package 3.2 (activity 12) whose purpose is to train the stakeholders of the target groups, we have carried out four events local stakeholder events in Italy (two stakeholder events of the Veneto and two events for interested parties in Friuli-Venezia Giulia) and two events online for interested parties in Slovenia</p>

<p>13_LP_ACCORDO_IT 13_LP_ACCORDO_SL</p>	<p>Cooperation agreement between the Veneto Region and the Wet Area Contract of the lagoon system of Caorle</p>	<p>Strategic element for the achievement of the project objectives is the signing of an agreement with the stakeholders who use the sites and the Region of Veneto, in order to proceed with the implementation of the adaptation measures identified by the simulation of the PES - Protection from storm surges with systems of defense of natural dunes</p>
<p>13_LP_PROG_GARA_PROG_IT 13_PP5_RAZPISNA DOKUMENTACIJA_SLO</p>	<p>Related tender documentation the award of a contract public for the implementation of adaptation measures to climate changes</p>	<p>Tender documentation: subject of the contract, contracting authority, duration of the contract, etc.</p>
<p>13_LP_STUDIO_FATT_IT 13_LP_STUDIO_FATT_SLO</p>	<p>Operational plans and feasibility study of adaptation measures to climate changes</p>	<p>This document presents a preliminary assessment of the economic feasibility of such measures</p>

13_PP2_STUDIO_FATT_PIANO_OPERATIVI_IT	Feasibility study of the plans operational measures of adaptation to changes climatic conditions for the pilot site Natura 2000 Cavana di Monfalcone	The Municipality of Monfalcone, together with the other partners of the project, has identified some measures of adaptation to climate change for the Cavana di Monfalcone site
13_LP_PP2_PP5_REPORT_STUD_FATT_EC_PIANI_OPERATIVI_IT 13_LP_PP3_PP5_REPORT_STUD_FATT_EC_PIANI_OPERATIVI_SL	Report on feasibility studies and operational plans of adaptation measures for Natura 2000 sites	This document, which constitutes Activity 13 of Work Package 2, collects the feasibility studies of the operational action plans of the adaptation measures of all the Natura 2000 pilot sites that were examined by the project
13_PP2_accordo_IT_SLO	Agreement between the interested parties between the Municipality of Monfalcone And Environmental Association	The parties undertake to initiate, through the signing of this Protocol to a collaboration

	<p>"Eugenio Rosmann" Circolo Legambiente "Ignazio Zanutto" of Monfalcone Venice Giulia Reclamation Consortium Monfalcone fishermen cooperative Monfalcone Hunting Reserve</p>	
<p>13_PP5_MODEL_FINAL_IT 13_PP5_MODEL_FINAL_SLO</p>	<p>Joint model of the plans operational and feasibility studies of adaptation measures to climate changes</p>	<p>The joint model proposed for the analysis of the feasibility of operational plans for the climate change adaptation measures especially highlights cooperation with interested parties and the feasibility analysis based on various criteria that include both the economic efficiency and the socio-environmental impact of these measures, including the benefits that local communities would derive from the</p>

		implementation of proposed measures
13_PP5_ACCORDO_IT_SLO	Cooperation agreement	Cooperation agreement on the application of climate change adaptation measures based on payment schemes for pes
13_PP5_POR NRSZ FIN_IT 13_PP5_POR NRSZ FIN_SLO	Feasibility study of the plans operational measures of adaptation to changes climatic conditions for the pilot site Natura 2000 Val Stagnon	The operational plans will be analyzed using the methodology to conduct a feasibility study with which we will examine and evaluate the strengths and weaknesses of the individual measures and on this basis we will select the most feasible measure.
14_PP2_PROC_ARM_IT 14_PP2_PROC_ARM_SL	Harmonized procedure e validated on services ecosystem (ess), systems of payment of services ecosystem (pes) and plans of adaptation in the sites	acronyms, extract for public decisers, ita-slo harmonized procedure and validated on ecosystem services (ess), payment systems for ecosystem services (pes) and adaptation plans

	costieri di natura 2000	in the coastal sites of natura 2000
14_PP2_REPORT_COMPARATIV_IT 14_PP2_REPORT_COMPARATIV_SLO	Comparative evaluation of the effectiveness of the ECO-SMART project pilot cases	The Deliverable 14.1 analysed and assessed to what extent the activities carried out in the pilot cases contributed to the achievement of the project's objectives thanks to the methodological approach developed and applied by ECO-SMART
16_LP_FORMAT_ADOZ_NORM_IT 16_LP_FORMAT_ADOZ_NORM_SLO	Format procedure general for adoption of the project results in the regulatory framework	This document outlines a format to define the general procedure for the adoption of the project results in the Italian and Slovenian regulatory framework
COM1_LP_REPORT_EVENTI_IT_SLO	Collection of information events where the partnership has promoted the activities and results of the project	This document brings together all the national and international conferences and/or dissemination events at which the partnership promoted the activities and results of the studies carried out

		during the implementation of the project
COM4_LP_REPORT_ARTICOLI_PP2_PP3_PP5_IT-SLO	Collection of publications and specialized scientific, informative and didactic articles	This document brings together all the articles published by the partnership during the project, where possible the content of the article has been transferred to an online publication.
Cartografia finale (siti del progetto)	Final cartography (project sites)	Final cartography (project sites)
